[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO FEBRUARY 24.

The Black Sea Opened to Foreign Men of War

LONDON, Feb 20.—The Conference agreed to open the Black Sea to foreign men of war, and authorized admittance to the Dardanelles of all armed vessels, Russia and Roumania alone excepted to the terms. A Constantinople dispatch says the Porte objects to Powers having more than two armed ships in the Danube and protests against the expedition.

The marriage of the Princess Louise occurs on the 21st March.

LONDON, Feb 20.—The *Times* Versailles special says the *Moniteur* declares that the prolongation of the armistice will injure the position of the Germans. Germany is determined to continue the war if compensation for the past and guarantees for the future are not given.

PARIS, Feb 19.—The authorities fear unpleasant demonstrations against the Emperor William and Bismarck, if the Germans enter Paris.

A German prefect is appointed for St Denis. Eight hundred thousand francs have been exacted from there.

Thiers Urges Peace in the French Assembly.

BORDEAUX, Feb 20.—In the Assembly Thiers in a speech dwelt upon the distress and suffering caused by the war, and the necessity for peace. Nevertheless peace would be courageously discussed with the Prussians and only accepted if honorable.

The Assembly adopted the proposal of the Government to send a commission of 15 deputies to Paris to act intermediary between the negotiators and the Assembly. Thiers proposed that the Assembly suspend its sittings during the negotiations.

Thiers, Picard and Favre left for Paris this evening.

Prussia Rejects Mediation.

A Berlin telegram says Prussia still rejects intervention and mediation.

Bismarck will soon recognize the French Republic.

The Bonapartists are waiting for a Plebiscitum.

VERSAILLES, Feb 20.—Of the 12,000,000,000 francs imposed on the Department of Oise there was 10,000,000 deficit. Similar concessions were made by the Germans elsewhere.

An exchange of prisoners will occur soon.

Paris is quiet.

LONDON, Feb 21.—A comparison of the new Ministry under President Thiers produces an excellent impression. It is reported that the Germans have levied fresh requisitions of 2,000,000 francs on the city St Quentin.

Deliberations on the New Boundaries of France.

A cable dispatch from Berlin of the 16th says: Deliberations are now going on in the War office. France will be separated from Germany by the neutralized territory of Belgium, Luxemburg and Switzerland, and by the newly acquired territories and fortresses of Alsace and Lorraine, and from her old ally, Italy, by neutral territory replete with obstacles to military operations. The great object of Germany is to incapacitate France from taking her threatened revenge. Bismarck is willing to renounce Metz upon conditions of its being dismantled, but Von Moltke insists on taking the fortress as a necessary strategical point. Moltke insists on retaining a belt of territory, including Belfort. The people of this region are entirely French. Bismarck is unwilling to insist, and the question is still under debate in the Imperial Council.

Armistice not to be Extended.

No further extension of the armistice will be conceded on any ground whatever.

LONDON, Feb 21.—In the House of Commons, Gladstone, in reply to an inquiry, denied that Her Majesty's Government had received any proposals for the purchase of the British Dominions of North America.

LONDON, Feb 21.—Thiers, Favre and Picard arrived at Paris yesterday to go to Versailles.

All European States have recognized the new French Government.

Louis Joseph Buffett is the new Minister of Finance. He arrived in Bordeaux and was appointed.

It was announced in the Assembly that Duke De Broglie was appointed Ambassador from France to London.

PARIS, Feb 20.—The Metz question is settled. Lorraine is annexed, and includes Ponte a Mousson. The French are pressing for a prolongation of the armistice to March 2d. However, Moltke insists that the troops shall enter Paris on the 25th inst.

The meeting of the Parliament at Berlin is postponed till March 15th.

The period fixed for passing indemnity taken in bills is five years.

Rothschild advanced 800,000 francs to pay the St Denis indemnity demand.

Gen Vinoy has issued orders to the National Guards to deliver up the company materials.

VERSAILLES, Feb 22.—The *Gaulois* states that Luxembourg undertakes to pay Prussia 2,000,000 francs for breach of neutrality and allows Prussian troops to occupy Luxembourg fortress.

BERLIN, Feb 21.—The North German *Gazette* says Bismarck does not follow personal but German policy, and will be a most unpopular man in Germany if he does not bring peace negotiations to a close.

LONDON, Feb 21.—The National Guard in Paris will be dissolved and remodeled before the Germans enter the city.

Official returns received at the War offices show that during the month of January the French lost 890 pieces artillery, 350,000 men. Of the latter, Chanzy lost 25,000, Roye, 12,000, Faidherbe 11,000, Bourbaki, 35,000, and the Army of Paris, 150,000. Of the Army of the East, 8,000 entered Switzerland. The loss of the Germans during the same month was 10,000.

BRUSSELS, Feb 21.—It is rumored that negotiations are pending between the Court of Rome and the Catholic party here for the transfer of the Holy See to Belgium.

MADRID, Feb 21.—Queen Maria Victoria is dangerously ill of fever at Alliso, and has received the last sacraments. A later dispatch says the report prevails of the death of Queen Maria Victoria.

The French Assembly.

LONDON, Feb 21.—It is believed that the French Assembly will name a triumvirate, including an Admiral and General, to arrange terms of peace.

It is said the Assembly will pass an electoral law and dissolve and shift the responsibility of reorganizing France on other shoulders.

An Orleanist to be King.

PARIS, Feb 21.—The *World's* special says the programme is to conclude peace on the best terms possible.

Bismarck will agree to clear France of Germans, place the French army of Paris under Changarnier, induce the Assembly to proclaim the charter of 1830 as the supreme law and a *Plebiscite* to accept Count De Paris as King of France.

German Exactions.

LONDON, Feb 21.—A dispatch from Havre says Alencon refusing to pay the fresh contribution, the Mayor and eighteen Councilmen are held as hostages.

Mails from Paris.

LONDON, Feb 20.—Mails from Paris are forwarded now via Calais.

Dispatches from Pesth.

PESTH, Feb 20.—The Government declares to the Lower House that interference with the internal affairs of Roumania is not intended.

An Attack on the Seward Party in China.

LONDON, Feb 21.—China papers received by overland mail report that an assault was made on Seward and his party during their visit to Hong Foo.

Further from Paris.

PARIS, Feb 22.—Nothing is known of the Prussian terms of peace. *Figaro* says that they are conciliatory.

The Paris *Moniteur* says that Trochu has resigned, at the request of Thiers and retired to private life.

The Versailles *Moniteur* (official) justifies the German demand of two milliards and recalls the example of America.

Peace Agreed Upon.

VERSAILLES, Feb 22.—The German Emperor received Thiers to day. Gen. Chanzy was present at the interview. Peace is considered concluded though it has not yet been signed.

The Germans will probably enter Paris Sunday next, but without triumphal ceremony.

LONDON, Feb 22.—The Arrondissements are filled with water for the defence of Dieppe.

From Bordeaux.

BORDEAUX, Feb. 23.—Minister Picard has arrived here.

Rochefort has gone to Pavinno.

Prince de Joinville, Duke and Duc de Aumale have written to M Grevy, stating that they await the decision of the Assembly on the legality of their elections, before presenting themselves to take seats in the Chamber.

Germans to march through Paris.

PARIS, Feb 23.—Information from Versailles says it is determined that a portion of the German army shall march through Paris on their return home. Thiers continues to oppose this warning the Germans of the responsibility they will incur. A placard was posted on Monday in the Student's Quarter, appealing to the inhabitants to make a last struggle should the Prussians enter the city.

Nothing positive is known as to the conditions of peace. Financial journals say it is utterly impossible for France to pay 800 million francs or half that amount.

Thiers and Favre are at Versailles to day.

The English Parliament.

LONDON, Feb 23.—Parliament was startled to night by a declaration of Lord Hartington that disaffection existed in Ireland to such an alarming extent that it would be necessary to appoint a secret committee to ascertain the cause. The Tories are exultant at this evidence of the failure of the Irish policy.

The Government of England is negotiating for the purchase of the Dutch settlement on the gold coast of Africa for £23,000 sterling.

Lord Canarvan announced measures for national defense, and argued in favor of the necessity of early preparation in view of the astonishing rapidity of the Prussian campaign against France.

Terms of Peace.

NEW YORK, Feb 24.—The following is just received from London per cable:

Thiers and Bismarck have signed the treaty of peace. Some details are to be settled to morrow. France pays 320,000,000 thalers. Alsace and Lorraine, including Metz and Nancy are ceded to Germany. The Prussians do not enter Paris. Emperor William leaves on Monday.

(Signed) SIMONTON.

French Hostages Liberated.

BREMEN, Feb 24.—A telegraphic order from Versailles directs the immediate liberation of French hostages.

WASHINGTON CITY.

C. WASHINGTON, Feb 24.—The Joint High Commission begin their labors next week. All members on the part of Great Britain, and all American members except ex Attorney Hoar, are in Washington. It seems likely under the loose wording of the agreement, that the Canadian claims for damages, caused by Fenian raids, will come before the Commission. Earl Humberly's letter to the Governor General of Canada, in which he urges that the claims arising out of the Fenian invasion be presented to this Government for settlement at the time, caused quite a sensation in Administration quarters, and is subject to comment among members of the Cabinet. Sec Fish takes a different view of the subject.

EASTERN STATES.

The Tennessee Safe—Reception of the Commissioners at San Domingo.

NEW YORK, Feb 20.—The steamship *North America* from Rio Janeiro via St Thomas has just arrived and brings news of the safe arrival of the *Tennessee* at San Domingo. A San Domingo letter dated Feb 3d, says the Commission arrived here from Samana Bay yesterday. Every one connected with the party is in excellent health. Want of coaling facilities detained the ship six days. They landed this morning and was formally received by Baez. Wade explained the object of the commission and the Cabinet gave them a cordial welcome. Baez said peace and stable government would follow union with the United States. The people were anxious for union. He expressed a hope that the Commissioners would examine all classes of the people and promised to extend every facility. When the gunboat *Nantasket*, which brought news of the *Tennessee* to St Thomas, left San Domingo arrangements had been completed by the authorities on the Island for taking a vote of the population on the question of annexation to the United States.

West Indies.

KINGSTON, Feb 23.—It is rumored at St Thomas that a revolution has broken out in Hayti with the object of putting Salnave into the Presidential chair. Salnave is in Europe, but is expected at St Thomas immediately.

A proclamation has appeared in St Thomas from Capitol calling on all true Dominicans to drive Baez from the country and preserve Dominica. It speaks of the country as being sold like a piece of merchandise.

The Canal and Locks at Wallamet Falls.

BUTTEVILLE, Feb. 19, 1871.

EDITOR OREGONIAN

Notwithstanding the unjustifiable action of the Legislature in awarding the charter for building a canal at Oregon City, that is no reason why you should belittle the importance of a canal. You indorse the report brought in by Judge Williams and the letter of your correspondent from Oregon City, which I think put forth statements calculated to mislead and belittle the benefits that are to be derived by the producers of this valley. The report speaks of the competition with parallel lines of railroad. Where will the competition be if Holladay buys out the P. T. Co., or they consolidate their interests, which I am told has been talked of? It also says that the tax on freight at present at the Falls is 14 cents a ton; your correspondent that it is only 12½ cents. Now will the P. T. Co. put freight through for other parties for double these rates, or even 50 cents?

I think the OREGONIAN ought to have a good word for whatever will benefit the producers, rather than what will benefit the middlemen, be they the P. T. Co., Ben Holladay, or any other man.

Yours respectfully,
JOHN C. BUCHANAN.

We fail to understand how Mr. Buchanan can write a letter of this kind in regard to the proposed enterprise at Wallamet Falls, and yet hold that the action of the Legislature in making the grant for that enterprise was "unjustifiable." In our view the unjustifiableness of that action consists chiefly in the attack which it makes upon the school fund of the State. We do not intend to underrate the importance of the work; we have merely wished to show that in our opinion it was not proper to steal the school fund for that or any other similar purpose. An adequate support for the schools of the State is about as important and desirable as any canal or railroad could be. We know not at what rates the P. T. Co. can pass freight over the locks, and have expressed no opinion thereon. Whether Ben Holladay is likely to absorb or combine with the P. T. Co., or not, we cannot tell nor can we do more than guess whether or not he will form a combination with the lock company after their works shall be constructed. Everything that could be said on those points would be merely conjectural. Nobody opposes the construction of the proposed works at the Falls; but three-fourths of the people of the State, as we think, condemn the robbery of the school fund for that object. That is the point we stand to, and we think the robbery ought to be resisted in every possible way. Nobody dares to raise a voice in opposition to the act of Congress to convey the rest of the land grant, beyond question, to the schools: then who can defend this act of spoliation? From this, the leading point in the case, we cannot be drawn by any talk about competition on the river or between the river and the railroads, for that is not pertinent to the question. The question is, ought not the school fund to be kept inviolate?

Bootblack Statesmen.

The Confederates made a fight in favor of the Confederate or State compact theory of government, and lost. It was a fierce struggle on the battle-field for a political theory which had been contested in the forum for many years. But the utter defeat of the Confederates and their theory does not dismay a certain believer in that theory who dwells in Oregon and has charge of the "State organ." He deems it to be the duty of his party to revive the political principles for which the Confederates seceded and fought, and to make them predominant throughout the country. It is a mistake, this restorer of correct constitutional views declares, to hold that the Constitution of the United States creates a National Government. It creates only a compact of States which have not surrendered their sovereignties. We quote this authoritative deliverance from the "State organ:"

> The advocates of this new fangled doctrine —the doctrine of a consolidated Union or National Government in regard to the present system of government cannot safely go further back than Lincoln who knew no more about governmental affairs than does a bootblack about a steam engine.

This elegant and forcible conclusion may be supposed to settle the whole matter,—to the satisfaction of the "State organ." Nevertheless we think it entirely "safe" to go a little further back than Lincoln" to find authority for this so-called "new-fangled doctrine." Suppose we go back to Gen. Jackson. Something like forty years ago South Carolina was agitating the "State compact" theory which the "State organ" of Oregon is now contending for. In pursuance of that theory South Carolina was about to secede from the Union. She didn't believe in the "consolidated Union" that some people were talking about. In short her views of the nature of the Government were precisely those the "State organ" of Oregon now announces. This gave Gen. Jackson an opportunity to declare *his* views. He proclaimed to the politicians of South Carolina that it was time for them to abandon their "State compact" doctrine, and that he would have no nonsense about it. Said he:

> The people of the United States formed the Constitution; * * * the terms used in its construction show it to be a Government in which the people of all the States collectively are represented. * * * The Constitution of the United States forms a Government, and not a league. * * * It is a Government in which all the people are represented, which operates directly on the people, individually, not upon the States. * * * The States severally have not retained their entire sovereignty. It has been shown that, *in becoming parts of a nation, not members of a league*, they surrendered many of their parts of sovereignty.

We might quote very largely from other sources equally high, but the above will do. The subject is very old, and we only advert to it out of regard for our neighbor of the "State organ," who will perceive from the extracts cited that General Jackson in his view of "governmental affairs" knew just as little as Mr. Lincoln. He held that the Constitution of the United States formed a Government, and not a league; that we are a nation of people, not an association of States. It is perhaps to be regretted that he "knew no more about governmental affairs than a boot black does about a steam engine;" but so it is, if we are to believe the "State organ."

The *Herald* publishes an advertisement of the new national loan, signed by the Secretary of the Treasury. It can hardly be supposed that the Secretary himself ordered the publication in that paper; or, if he did order it, he could not have known that the *Herald* is and has long been one of the most persistent, unscrupulous and dishonest advocates of repudiation to be found in the United States. We should think that few people would be induced to subscribe to a national loan by an advertisement of the same in a paper which insists that the national debt, which this same loan is designed to cover, ought to be, and ere long will be, repudiated.

The State Printing is finished. It is therefore to be hoped that the "gross frauds" which the Legislative Committee condemned are at an end.

A Check Upon "Pilferers"

Still another Democrat "goes for" the badgered "organ." The following letter has been addressed to the Albany *Democrat*, and appears in that paper:

"STATE PRINTING JOB."

To Mr. M. V. Brown, Editor of "State Rights Democrat," and State Printing Expert:

SIR:—As a tax payer and citizen of Oregon, I demand that when you shall be called upon to measure and determine the amount of work done by the present State Printer, T. Patterson, the same shall be done in strict conformity to the law creating said office and defining the duties thereof.

A long practical knowledge of such printing will enable me to judge very closely how much "fat" has been made by the Printer and how much allowed by the measurer. I shall expect to examine the work when finished and the bill when allowed.

I cannot quietly consent to see the State Treasury pilfered of unjust amounts by men who were "Kansas freedom shriekers," when I was paying taxes in this country and battling "Union League" organizations in behalf of Democracy. I have suffered enough from such "gay deceivers," and henceforth shall make war upon them the same as I did a year ago, although they may, for the time being, hold prominent places within our own ranks.

Of this you will take due notice and govern yourself accordingly.

Respectfully, URBAN E. HICKS.

Good! In behalf of the tax payers of Oregon, we hope that Mr. Hicks may so execute his intentions as to prevent a repetition of the "gross frauds" in the State printing which a Democratic Committee of the recent Democratic Legislature charged upon the proprietor of the "organ," when that body was in session last fall. Mr. Hicks' letter indicates that he is aware that it is the design to "pilfer the State Treasury of unjust amounts"—which is excellent Democratic testimony as to Democratic practices.

The German thaler is worth $0,726. It is now definitely ascertained that France is to pay 320,000,000 thalers, money indemnity, to Germany. This amounts to the sum of $232,320,000—quite a pretty fine for a breach of the peace.

OREGON.

They are agitating at Albany for a city park.

Dr. King of Scio is down with the small pox. It is feared he cannot recover.

The Committee appointed at Salem to canvass for subscriptions for the subsidy ($10,000) to encourage the erection of the manufactory of agricultural implements at that place, will begin their work in a few days. It is believed that the sum will be raised.

The notorious Dr. Beem, who recently figured at Seattle and Victoria, reached Albany a few weeks ago, where, after stopping a while, he borrowed $230 and decamped. He was arrested at Oakland and brought back as far as Eugene City, where he made his escape and has not since been heard from.

An Albany paper says: We hear it from reliable sources that the matter of building a ditch canal, for the purpose of bringing in the waters of the Santiam to this city, is progressing favorably. Our citizens are fully aroused to the benefits to accrue by the accomplishment of such an improvement, and stand ready to put it through.

From the Albany *Register*: Our fellow-citizen, Mr. G. J. Gray, recently sold to Mr. Frank Propst, 192½ acres of land, lying six miles east of this city, for the sum of $5,005—or at the rate of $26 per acre. Last week Mr. Howard sold his farm, a short distance from this city, consisting of six hundred acres, for the sum of $9,000—or at the rate of $15 per acre—cash in hand. It was purchased by a gentleman from Illinois.

From the Albany *Democrat*: During the past week Dame Rumor has been whispering in the ears of the people of Albany that Ben Holladay designs running the West Side Railroad on up through Multnomah, Washington, Yamhill and Polk counties to a point opposite this city, and then crossing the Willamette on a railroad bridge here, will effect a junction of the two roads at our city. From whence the rumor cometh or whither it goeth, we know not.

From the *Statesman*: Articles of incorporation have been filed in the Clerk's office here of the Salem Water Works Company. The incorporators are J. M. Martin, David Allen, W. F. Boothly and H. Stapleton. Capital stock $50,000. We are informed that the Company will perfect its organization and commence operations as soon as the weather will permit. They are already procuring the information needed as to the plans and specifications for similar works elsewhere with a view to deciding what will be the best plan to pursue here.

Grant's Appointment to West Point.

[From the Cincinnati Enquirer.]

We have been handed, by Hon. John G. Marshal of Brown county, the original letter written by the father of President Grant to Hon. Thomas L. Hamer, asking him to appoint his son Ulysses to a cadetship at West Point. This was in 1839. At that time Mr. Hamer represented the Sixth District in Congress. He complied with the request, secured the appointment of Ulysses, and it may, therefore, be said that he laid the foundation for the future warrior and President. A proposition is now before the State Legislature to erect a monument at the expense of the State to Gen. Hamer. Here is the ancient letter referred to:

GEORGETOWN, O., Feb. 19, 1839

Hon. Thomas L. Hamer—Dear Sir: In consequence of a remark from Mr. Morris, while in your town last fall, I was induced to apply to the War Department, through him, for a cadet appointment for my son, H. Ulysses. A letter this evening received from the Department informs me that you only are entitled to the nomination and that your consent will be necessary to enable him to obtain the appointment. I have thought it advisable to consult you on the subject; and if you have no other person in view for the appointment, and feel willing to consent to the appointment of Ulysses, you will please signify that consent to the Department. When I last wrote to Mr. Morris [Then U. S. Senator.—ED], I referred him to you to recommend the young man, if that were necessary. Respectfully, yours,

JESSE R. GRANT.

To the HON. THOMAS L. HAMER, Washington City.

The Recent Railroad Horror.

The New York *Tribune* thus tells how the recent terrible accident happened on the Hudson River Railroad:

At about 10:20 on Monday night, Feb. 6, as an extra freight train of 21 cars, loaded with petroleum, was approaching New Hampshire station, which is eight miles below Poughkeepsie, and was clearing the bridge over Wappinger's creek, coming down the road, an axle of the tenth car from the engine broke, and that car and the 14 following it were thrown from the track, one car bearing two tanks of oil resting partly upon the other, or "up track." Just at the same moment the Pacific or Chicago express train, which had left New York at 8 o'clock, was approaching at the rate of 30 miles an hour. The engineer heard shouts from the men on the freight train, discovered a danger signal suddenly displayed, and attempted to stop his train. But it was too late, in the next instant the locomotive had struck the oil car, an explosion ensued, the bridge gave way under the combined weight of locomotive, oil car and other cars that were suddenly tumbled upon it, and there was a terrible plunge into the water. The ice was thick, but the locomotive broke through it instantly, sinking into the water 15 feet deep, and dragging with it the tender, the baggage and express cars, and one sleeping car. The remaining seven cars of the express train were not precipitated through the bridge, but two of them, with several cars of the oil train, were destroyed by fire. The bridge took fire, and in a few minutes the whole structure fell upon the cars which were half immersed, being partly supported by the ice, and buried them out of sight. This dreadful result put an end to all efforts to rescue the passengers whose agonizing shrieks had just filled the air.

The bridge was about 200 feet in length, and the axle of the oil car appears to have been broken before reaching it, so that the car dragged along for some distance, and was finally left on the bridge and partly, as stated, on the "up-track."

So severe has the winter been in England that birds are dying of hunger. Blackbirds suffer especially.

From many testimonials we submit the following:

From Circular of the State Normal Board of Minnesota

"The importance of a correct and careful training of the voice, both in singing and speaking, can scarcely be over estimated. Probably thousands of our public speakers and singers are at the present time injuring themselves by a wrong use of the vocal organs. This is the inevitable result of a false system of training. Impressed with this fact, the Board has united the departments of Vocal Music, Elocution and Physical Culture under the more comprehensive designation of the *Department of Vocal and Physical Culture*, and has placed at its head Professor J. B. McGIBENY, one of the most accomplished instructors in this field to be found in the country. Under his thorough and philosophical system of training, the Board confidently expects to inaugurate a much needed reform in this important branch of education in the State. This training alone will more than justify the expense of the entire Normal course.

From Hon. Marlow H. Donnell, State Superintendent of Public Instruction, in his report to the Legislature of Minnesota

"PROF. MCGIBENY's eminent success in the State Normal School, stamps him master of his profession."

From Dr. Donovan, of New York city:

"We regard these exercises of the highest value in gaining and retaining strength and symmetry of body and vigor and elasticity of mind. Under Prof. McGIBENY's skillful leadership they indeed work wonders."

From Gen J. W. Sprague, Director of North Pacific Railroad:

PORTLAND, Oregon February 23 1871.

PROF. J. B. McGIBENY, now of this city, was formerly two years Professor of Music in the State Normal School at Winona Minnesota, (an Institution of high rank among the places of learning in the East). During that term it was my privilege to have sons under the tuition of himself and wife, who assisted him. Both are regarded as possessing rare qualities for teaching, and their efforts were highly appreciated by all who knew them; and by their high social and moral qualities they won and have retained the friendship of all who knew them. I cordially commend PROFESSOR and MRS. McGIBENY as eminently worthy of the confidence and patronage of all.

THE FIFTH LECTURE OF THE COURSE WILL be delivered by

COL. B. S. PARDEE,

Of Olympia,

On Tuesday Even'g, Feb. 28, 1871,

At 7½ o'clock.

Subject—"Picked up Fish:" an old-fashioned homely dish, possessing Political importance and a National History. What good does, and what broils may, come of it.

Colonel Pardee is well known as a popular Lecturer, and those who heard him last winter will testify that he deserves the high reputation he has won.

He has chosen a subject decidedly *piscatorial*, and were it not for its avowed *dryness*, we should incline to the belief that he intends giving his hearers an essay on "Desiccated Cod." We are certain, however, that it will be a savory dish—well seasoned, pungent, racy—and, although it may possess an *English flavor*, yet it will be served up in true American style.

THE VIEUXTEMPS BROTHERS

Have kindly volunteered to furnish music on the evening of each lecture.

SATURDAY MORNING, FEBRUARY 25, 1871.

CITY.

EAST PORTLAND.—The proceeds of the M. E. Festival of Wednesday evening amounted to $105 00.

The steamship *Ajax* is at the railroad depot, and will take on board there about seven hundred tons of flour, most of it from the Magnolia Mills, Albany.

The work of grading Second street goes on rather slowly, though as large a force as is practicable is engaged upon it. The track is laid to the J street bridge, and one of the locomotives is constantly employed in running the gravel trains.

On Thursday night there was no quorum of the Board of Trustees, and consequently no business was transacted.

The "Heathen Chinee" employed in grading, have a large camp on the bottom near B street and between the railroad and Second street. Their habitations over there, as well as their ways, are peculiar. The best of them are but flimsy tents, while some are no better than the old-fashiond Siwash sweat-holes. We should say, speaking in a humanitarian sense, that this manner of living does not hold out the most flattering prospects for heathen longevity.

The wagon road from the depot wharf up to the level of Holladay's Addition is nearly completed.

A lot of carpenters are at work upon a double-triggered sort of landing for the ferry boat. We are *perfectly* willing to give them credit for knowing what they are about; but as a mechanically-uneducated individual, we are unable to see it.

A DISREPUTABLE TRICK.—One of that class of dishonest men who load hams with salt, wool with dirt, tags and boulders, and sell them in the market in that condition for the sake of making money by disreputable mercantile tricks rather than steal it, has turned his attention to a peculiar mode of packing butter. Happening into a green grocers' store up town yesterday, we saw on exhibition several rolls of butter which looked fair on the outside, but which were full of uncleanness within. The enterprising butter-maker had taken balls of what appears to be a mixture of tallow, lard and soap-grease, and had covered them neatly all round with a pretty good article of yellow butter, thus making a very marketable article of roll butter, so far as outward appearance is concerned. The grocer had purchased a lot of it from a man who represented himself as a farmer "living a few miles from the city." Having occasion to cut a roll open, yesterday, he discovered the cheat. Roll after roll was then cut in two, each one being like the first. The interior contents are as white as tallow and about as palatable as soap-grease. The dishonest scamp who made it will be traced out, if possible, and when found, his name will be given to the public. Such a lot of butter, had it gone to any outside market, would have damaged the credit of the whole State. The entire producing community is interested in exposing and drumming out all such rascally fellows.

MT. PLEASANT SINGING SCHOOL.—The closing rehearsal of this school will take place at 2 o'clock this afternoon, at the Mt. Zion school house. The following is the programme for the occasion:

PART FIRST.

1. Chant—"Joy to the World," Root.
2. Glee—"The April Sunshower," Johnson.
3. Chorus—"Home, Blessed Home," Murray.
4. Solo & Chorus—"Spirit of Freedom," Wyman
5. Glee—"Chiming Bells," C. M. Scovill.
6. Chorus—"Peaceful Be," H. K. Palmer.
7. Quartette—"The Village Bells," Wyman.
8. Chorus—"Crowned with Light," Martin.

PART SECOND.

1. Chant—"Come to Me," Wyman.
2. Glee—"O, wipe away that Tear," Jones.
3. Quartette & Chorus—"Come to the Savior."
4. Song—"Lottie Lee," Mrs. McGibeny.
5. Chorus—"Our Home in Heaven," Andrews.
6. Exercise Song—"Johnny Schmoker."
7. Male voice Quartette—"Speed Away," Humphreys, Stott and Humphreys.
8. Anthem—"There's a Light in the Valley."

All are invited to attend.

MAP OF THE CITY PARK AND SUBURBS.—Mr. Martin, County Surveyor, is engaged upon a map of the tracts—"additions"—lying west of this city together with a plat of the recently purchased city park. The tracts which have thus far been mapped belong to A. N. King, Isaac B. Smith, E. S. Perkins, Jos. Teal, A. H. Johnson (two tracts), John & H. D. Green, and S. D. Green. West of all these is the city park. Measuring from the foot of Main street to the west line of Johnson's southern tract, in the line of an extension of Main street, and then deviating a little southerly, the first line of the city park is distant from the Wallamet river about one mile and a third. This is the nearest route to the park from any point on the river. The average distance of other practicable routes is about one mile and a half.

COMING IN FINELY.—The presents, rich, rare, useful and pretty, for the German Fair appointed for Monday evening, are multiplying at Alisky & Hegele's place rapidly and commendably. Their front room looks now more like a fair room than a confectionery store. The boys, however, take everything that comes along, and manage to find room for it. The contributions are for a commendable purpose and the more of them the better. The clock which has already realized a round sum for the German Patriotic Aid Fund, is among the articles on exhibition, and is, with eleven other articles, to be disposed of in a distinct lottery. We notice, too a splendid family knitting machine among the contributions.

RECEIPTS FROM THE POLICE COURT.—The receipts to the city and county treasuries, from fines imposed and collected in the Police Court, for the three months ending Jan. 31st, were as follows:

November, 1870,	city	$ 502 70
" "	county	145 00

"	county	105 75

PRESENTATION.—Thursday evening Mr. A. J. Marshall, Junior Past Arch of Morvin Grove No. 2 U. A. O. D., was presented with an elegant and expensive regalia collar, as a testimonial from the brotherhood of the Grove to the merits of the recipient and of the high estimation in which he is held by the members of the order. The presentation was made by Mr. W. H. Utter, the present Noble Arch. The collar is of crimson silk velvet, embroidered with appropriate emblems, and trimmed with gold thread border. The presentation was an *utter* surprise to Mr. Marshall, but he accepted the gift with thanks, tersely but feelingly expressed.

PORTLAND FERRY.—The proprietors of the ferry boat plying between this city and East Portland, have got tired of steering their unwieldy craft by heavy muscle, and have concluded to try the virtues of a wire rope stretched from shore to shore and running through pully blocks attached to the boat. The boat will be propelled as usual by the paddle wheels, but the wire rope is expected to do the steering. If the expedient is successful, much time will be saved which is now lost by steering off down the river and then working up against a rapid current.

A SENSELESS CONTROVERSY.—The Methodists and Catholics, in the struggle for the "flesh-pots" of Indian Agencies, have got into a controversy about which of them first "evangelized" the Indians in certain localities. As a third and entirely disinterested party, we beg to submit that, so far as heard from, the Indians have not been by either of the contestants, or "any other man," evangelized enough to hurt them much.

TEMPERANCE LECTURE.—The lecture delivered last evening at Good Templar's Hall, by Rev. Dr. Lindsley, was listened to by a very large and intelligent audience. His relation of the rise and progress of the temperance reformation was replete with interest, and he touched off finely the drinking usages of the present day. A series of such lectures before our people could hardly fail to be productive of much good.

BRO. EARLE STILL IN THE FIELD.—Rev. A. B. Earle, the revivalist, who will be well remembered as having held a series of meetings here three or four years ago, was recently doing a similar work in Raleigh, N. C. During his meetings there the Governor of the State was numbered among his converts.

CATHOLIC BOYS' SCHOOL.—We learn from the *Sentinel* that the school for boys in this city, under the charge of the Sisters of the Holy Names, has about fifty pupils in attendance, in the two departments, and that the school is making good progress.

RELIGIOUS INTELLIGENCE.

The subjoined items are from the *Advocate*:

Bro. G. Hines will occupy the pulpit of Taylor street M. E. Church on Sabbath morning next.

A protracted meeting has been in progress in the M. E. Church at Oregon City during the past week, with very hopeful success.

Reuben, one of the most pious Indians on the Yakima reservation, died on the 16th inst., in the full triumph of Christian faith.

A new Methodist Church and Seminary are projected at Walla Walla. One of them at least is to be erected during the coming season.

The Oregon Conference, of the M. E. Church, contains at present, 68 travelling preachers, 56 local preachers, 4,941 members, including probationers.

Rev. G. C. Roe, of Yamhill circuit, who sprained his ankle so severely last summer, writes to us that he is improving slowly. He can now hobble about with a cane.

Married—At the residence of Thomas Johnson, Esq., of Klickitat county, W. T., Feb. 21st, by Rev. H. K. Hines, Rev. G. Hines, of the Oregon Conference and Miss Ann Johnson, of Rockland, W. T.

The health of our beloved Bishop Clark remains quite precarious; so much so that his physician absolutely forbids any pulpit or platform service for the winter, or for an indefinite period.

On Wednesday evening next, March 1st, may be expected another of those very interesting and successful Festivals which have been held occasionally at the Hall street M. E. Church. The proceeds are for the benefit of the Sabbath School, and we hope it will be well attended.

AMUSEMENTS.

ORO FINO THEATER.—The Nickerson minstrels, at Oro Fino, had a thinner house last evening than usual, but the performances were equal in variety and merit to any they had before given. There will be a matinee performance this afternoon and a new and good bill to-night.

SUNDAY EVENING LECTURES.—The impression which has gained ground in certain quarters that Rev. Dr. Lindsley had discontinued his Sunday evening lectures, is erroneous. The lectures will be continued as usual each Sunday evening.

Rev. Mr. Roberts, pastor of the M. E. Church of this city, will deliver a lecture to-morrow (Sunday) evening on the subject of "Nature and Science in harmony with Revelation." The subjoined extract from the *Advocate* may be considered a forecast of the lecture: "In this age of Books there are two volumes demanding especial attention: One is the *Bible*—the other, the *Book of Nature*. The first challenges our attention by its authority, and is the most wonderful book in the world. The second is also wonderful and is written by the same author. It is the province of true science to interpret nature. The sacred canon was closed some two thousand years ago, while yet science was in its infancy. Since that time the human mind has not been idle. Geology has upheaved the crust of the solid earth, and delving deep, she has dug up the remains of former generations! And thus is given us the *Testimony of the Rocks*. The Sibyls of the Sky, too, have been interpreted. The results of the grapple of mind with the vast problems of Astronomy are laid upon all. It is now a *Book* for the *People*. Are these books in harmony with each other? Do the Geology, and Cosmogony, and Astronomy of these several volumes agree? The lecture is intended to be a contribution towards such harmony."

THE NEW AND VALUABLE IMPROVEMENT IN SECURING DENTAL FILLINGS—Patent applied for in January, A. D. 1871—is used only by the inventor, Dr. C. H. Mack, Office of Mack & Welch, in the Odd Fellows' Building, Portland.

HEALTH AND LONG LIFE.—Among the many preparations that have been recommended for this purpose, none, it is believed has proved as efficacious as PLANTATION BITTERS. This wonderful vegetable tonic appears to contain all the elements necessary to keep up the staminal strength of the system, and to protect it from the damaging effects of vicissitudes of temperature and other unhealthy influences to which we are all more or less exposed. The extraordinary invigorating and regulating properties of the preparation adapt it especially to the condition of the old and feeble, whose lamp of life is burning low, and requires a nutritious stimulant to sustain it.

THE
UNK WEED REMEDY!
OR
OREGON
RHEUMATIC CURE.
HISTORY:
THIS REMEDY IS COMPOSED OF THE ACTIVE principle of the Unk Weed, Eng.—Thasplum, Cordatum, Origanis, Lat.—Indigenous to Oregon—Grows most abundantly and perfectly in Washington county.
PROPERTIES, &c.:
It contains an active volatile principle extracted by Ether, and a bitter Tonic principle.
Medical Properties and Uses:
It is the most Sure and Speedy Cure for Rheumatism, Rheumatic Gout and Rheumatic Pains of all kinds that has ever been introduced in the Materia Medica. The Unk Weed Remedy as prepared by us, in consequence of the existing bitter principle, possesses the necessary virtue of being a
POWERFUL TONIC!
Promoting the Appetite and Invigorating the whole Digestive Apparatus, thus building and strengthening the system, while at the same time the volatile principle, being absorbed in the blood, acts specifically on the Rheumatic Poison, removing it from the circulation and system.
There are few remedies known to the Medical profession, which will remove the Rheumatic poison from the blood, but whose action is so powerful in depressing the system of the already enfeebled Rheumatic patient, that their use has to be abandoned before specific effects are obtainable. Hence the want of success in treating this prevalent, and in consequence, heretofore incurable disease. Unlike these Medicines, already known, the
"Unk Weed Remedy"
Though producing as powerful and as active effects on the blood and system in removing the Rheumatic Poison, also possesses a strong Tonic and recuperating element, which admits of its continued use even in the most delicate and debilitated. Thus we have the combination for the first time of these two necessary elements in the one remedy, which accounts for its superior and never failing curative effects in
RHEUMATISM, RHEUMATIC GOUT
AND
RHEUMATIC PAINS
Of all kinds.
Put Up in 10 oz. Bottles at $1 50 per Bottle.

INDICATIONS THAT THE INSURRECTION IS NEAR ITS END

[Correspondence of the N Y Herald]

HAVANA January 31, 1871 —There is now every indication that the end of the insurrection is close at hand, and that the strife, so long continued, in which so many lives have been lost and so much treasure expended, will soon give way to a condition of peace that Spain will again have control over the "ever faithful island" through all its length and breadth This information is based on the fact that the surrender of General Porro of which event I informed you a few days since has led to the results foreshadowed in my dispatch, which are that the surrender of many leading insurgents continues and that the work of pacification progresses rapidly

The most important event since the surrender of Porro occurred yesterday, when Captain-General Valmaseda received a letter from Edwardo Machado, Secretary of the Cuban House of Representatives, through his father, in which the clemency of the Government is asked, Machado, after making the request gives the following information respecting the condition of the Cuban Congress He says that the House of Representatives has dissolved, and that the members thereof are looking after their personal safety, each of the members seeking safety for number one

The condition and whereabouts of several important members of the so-called Cuban Government are given in the same document Don Miguel G Gutierrez, Vice President of the Cuban Republic, and his son, are wandering about in the woods in the neighborhood of Guaymaro, Tranquelino Valdes, a member of the House of Representatives, from Cinco Villas, who is also seeking safety in flight, is in a most pitiable and forlorn condition, his body being covered with festering ulcers his exact whereabouts is not known, but he will probably soon give himself up, with the hope of receiving pardon Many others will soon come in, when they are assured that the humane policy of Valmaseda [illegible] no [illegible] myth, but a reality, that they may de[illegible] upon the same mercy and kind treat[illegible] were extended to Porro and those [illegible]endered with him.

[illegible] movements are being carried on [illegible] those still in arms, and the Spanish [illegible]ps are meeting with great success, the weather being favorable for their operations.

The greatest confidence is now felt and ex[illegible] in this early collapse of all that re[illegible] of the rebellion The authorities are [illegible]guine and not without good reason, that [illegible]ort time more will witness the entire and complete restoration of the supremacy of the Government

Official dispatches announce the voluntary surrender on Saturday of the insurgent chief, Hudrea Dominguez, with four officers, seven[illegible]y two men, armed with rifles, and sixteen families

A party of fisherman saw lights off the coast [illegible] Mantua, in the Vuelto Abajo district They are supposed to have been the lights of some filibustering expedition Nothing has been seen of them since. The insurgent Captain Santa Perez, with thirteen men, have surrendered to Major Aragon

Reports from Nuevitas announce the surrender of the insurgent chief, Perdoma, the successor of Madrival, and 119 men

THE LATEST AND MOST STARTLING FISH STORY —The last fish story comes from New Jersey Lately, in the interior of that State an old looking countryman entered the car, [illegible]g a bundle tied up in a handkerchief, [illegible]ced under his seat at the end of [illegible] [illegible]er traveling along for about half an hour, a lady sitting in front of the countryman was observed to move uneasily in her seat, and to cast savage glances at a seemingly respectable man sitting by her side

In a few moments afterwards, another lady still further to the front, "became uneasy," and at last, rising in her seat, requested that some gentleman in the car would protect her from an elderly-looking gentleman by her side, and whom she stated had insulted her

A dozen persons offered their assistance, and before the accused could speak in his own defense, his hat was jammed over his [illegible]s and he promiscuously dragged to the [illegible]or of the car

[illegible] there and carrying on with the aven[illegible] [illegible] of words as to what the indignity [illegible] another lady rose, also seated [illegible] the car, and accused a gentleman [illegible]und her, with improper conduct [illegible] made for insulter number two [illegible] gentleman vigorously defended him[illegible] [illegible] a large walking stick which he [illegible]o have, (and which, by the way, [illegible] the cause of the last troubles, his ac[illegible] stating that he had indecorously been [illegible]ping her ankles under the seat with the same,) and while the struggle to get at him was still in progress, somebody in the front of the car shouted, "there's a snake on the floor" A scene then ensued The ladies in the car clambered up on to the seats and many got on the arms and backs of the same One elderly maiden managed to stand on the backs of two seats, in the best circus manner possible under the circumstances, while a young mother threw her body into the parcel rack and then hung convulsively to a ventilator

The confusion awoke the countryman, who, on being told of the snake, first felt in his bundle and then exclaimed "*I'm blamed of that ar old eel hain't got loose!*" started for the front and soon returned, grasping firmly an immense eel, which he had caught while out [illegible]ing but which, when brought into the car had managed to get out of the bundle, and had wended its way to the front, lovingly caressing the ladies he encountered on the way Apologies given and received, straightened everything in that car but the hat that was jammed down, and the countryman leaving at the next station, no blood was drawn.

STATE HISTORICAL SOCIETIES —In a brief article urging the formation of historical societies in every State in the Union the Washington *Patriot* recently said

The historical societies of less than half the States are, for the most part, recognized rather as the result of blameless curiosity than of solid and practical labor for the public good Nevertheless, the New York, Massachusetts, Pennsylvania, and Michigan historical societies have done great service So have those of Virginia, and some other of the Southern and Western States, but nothing fit to be compared to the richness of the field, particularly in Virginia, North Carolina, and Florida Every State in the Union should have an active historical society. We especially view with regret the neglect of her thrilling and glorious colonial history by the people of North Carolina Nor is Maryland known by her own sons as she ought to be The fact that at Annapolis the tea ship was boarded, and her cargo cast into the Chesapeake, not by persons disguised as Mohawk Indians, but by the leading young gentlemen of the town, in open day, has hardly been heard of by the millions who have extolled the patriotic exploit at Boston Maryland had fewer Tories to her population than any other colony, and her soldiers were among the very flower of the Revolutionary Army

An experienced steamboatman writes to a New Orleans paper giving what is, in his opinion, the principal cause of the explosion of steamboat boilers He says that the hydrostatic pressure applied to boilers by the local inspectors appointed by the United States Government has a tendency to weaken the boilers and make them liable to explode The law requires that all boilers on steamboats navigating the rivers shall be tested once every year, or as often as the Government inspector shall see fit to do so, and the writer maintains that in applying their test by hydrostatic pressure, and running up the pressure from fifteen to twenty per cent more than they allow a steamer to carry, there is a very strong tendency to weaken the iron, which may not show itself, perhaps, for hours or days after a steamboat starts on her trip

The Chicago *Standard*, a Baptist journal, thus comments on the fact that Henry Ward Beecher has consented to receive a salary of $20,000 per annum, "The birds have nests, the foxes have holes but the Son of Man has no where to lay his head But that was in the olden time It is a sin for a church to give, or any pastor to accept such a salary while one half of the people of Brooklyn and New York are without church accommodations It is simply an outgrowth of church pride The salary is indeed unprecedently large but can *the Standard* tell the precise amount of money which, according to the principles of Christianity, a church may pay its pastor, and beyond which it cannot go without sin? Where is the limit?

The great iron bridge now being constructed over the Mississippi, at Hannibal, Mo, is one of the great works of the present day The length between the abutments is 1,080 feet It will be eighteen feet wide in the clear, and is intended for both railway and highway travel With the exception of the piers and flooring, the bridge will be of wrought iron throughout The amount of material to be used is something enormous, 400,000 lineal feet of piling 1,000,000 feet of timber and flooring, 10 000 tons of masonry, 10,000 tons rip-rap, 1 000 tons of concrete and 1,350 tons of iron The structure is to be ready by the first of August and will cost about $500,000
